

ORTMANN

Hologram Artwork: "TEMPLATE" Version 1 / 05.06.2006

Info:

Give your design a name and version number.
Fill in the final size.

Final Size: ###x### (WxH) mm

Info:

Create black background shapes with the shape and size of the final hologram.

Create a graphic for every layer on top of the black shapes.

Up to three layers are possible (FLOATING, NEUTRAL, BACKGROUND).

If you wish a serial number create an additional graphic to show the preferred position of the serial number in white colour (SERIAL NUMBER).

Create a copy of all graphics and put them on top of each other to show the wished relative positions and how the final hologram should look like (TOGETHER).

Use only up to four colours of the following basic CMYK colours (do not use RGB!):

100% cyan

100% yellow

100% magenta

100% cyan + 100% yellow

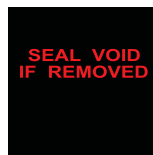

100% cyan + 100% magenta

100% magenta + 100% yellow

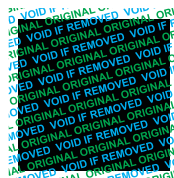

FLOATING LAYER

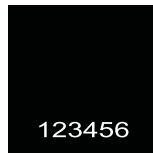

NEUTRAL LAYER

BACKGROUND LAYER

SERIAL NUMBER

TOGETHER
